

MORGEDAL – THE BIRTHPLACE OF SKI SPORT

” *In a world where ski resorts are becoming more and more alike, I want to ski somewhere genuinely different which will truly offer me a unique and challenging ski experience... Welcome to Morgedal.*

Shaped skis, telemark bindings, the telemark and the parallel (known then as the Christiania turn) turn, the telemark landing and the word slalom can all be traced back to the little valley of Morgedal, Norway. Sondre Norheim 1825 – 1897 and his protégées started a ski sport revolution here that would change the way a whole world would ski.

Learn to telemark ski in the valley that invented it.

Friendly instructors, rich ski history and a relaxed, “non-production line” approach with our guests are all trademarks of a ski experience in Morgedal. We are ready to teach you the graceful turn!

Ski making and testing – a pure, original ski experience

Think you are a good skier? Try a pair of these! Now in Morgedal, ski pilgrims can make their own skis and test them on the “world’s first slalom slopes”. A truly unique ski experience.

Ski play – kids on skis are happy kids

Relax by the fire in the Norwegian style bivouac or attempt a mini roof jump. A range of games, challenges stories and programmes are available here. Ideal for schools, families and work groups.

Accommodation – Morgedal Hotel, farm stays

A seventy room hotel with full conference facilities, indoor pool and a ski slope right outside the door or a 1917 original condition farm house belonging to great grandma? We have a range of accommodation to meet your needs.

Ski Adventure Centre – ski museum, café and souvenirs

A multimedia walk through 4000 years of ski history await guests to the museum here. Excellent guides, great food and useful information to help you get the most out of your visit to Morgedal.
